

Explora Science

Technology and Discovery Centre

PopUp Science Lab

9th to 21st February 2015

Come along to our **first ever Popup science lab** and have a go at these experiments and many more.

Have you ever split water into hydrogen and oxygen, generated your own energy and used it, blown out a candle without blowing, seen a saucy Cartesian diver or sorted muesli without touching it?

Be a scientist for the day with our amazing hands-on activities for visitors of all ages.

Are you a school? Check out our website for more details on how to bring your school along to the Lab.

£2 per person

58 High Street, Poole BH15 1DA
